

To whomsoever it may concern

I highly recommend Mohit Aphale for a position automotive cyber security specialist. He was employed by Visteon Corporation as an Embedded Cybersecurity Engineer from 2017 - 2019. He was responsible for Security Assessment and validation of automotive cybersecurity testing methodologies, Penetration testing of various clusters & IVI devices and in vehicle network protocols, Threat modelling and vulnerability analysis including customer interaction and reports walk through with customers. He has very good understanding of design and has excellent python automation skills.

He has excellent communication skills. In addition, he is extremely organized, reliable, technical strong and a great team member. He can work independently and is able to follow through to ensure that the job gets done. He is flexible and willing to work on any project that is assigned to him. Mohit Aphale is quick to volunteer to assist in other areas of company operations, as well. I thoroughly enjoyed working with him as he can match all kind of frequencies. He is always ready to help and mentor with what all knowledge he possesses.

He would be an amazing asset for your company and has my highest recommendation. If you have any further questions about his background or qualifications, please do not hesitate to reach me.
